

It was the perfect night the weather was great but needed a hoodie, there was nothing to stress about I was with the people I liked my best friend Nico her boyfriend Kevin the guy I was talking to Luke and a friend Quinn. The time we had together been perfect besides what came after. We got into all the vehicles and left I was in Luke's truck following the beautiful Chevy I'm in love with and want. We were driving through back roads just having some fun then Kevin stopped and told Luke to take the lead. Nico was in Kevin's and Quinn was in his small black car it seemed like he wasn't really there. So Luke took the lead and was just driving all the back roads in St John's.

The sun was setting and made the sky a nice golden color me and Luke was just talking about our music interests and I took over the music and started playing my type of music. Kevin signaled us to stop and told us that a woman was creeping on our fun and that wasn't good so we turned around and Kevin wanted us to take some bomb ass pictures of the vehicles with the beautiful sun set in the back. So after that we headed back to Nico's house. When we were all at Nico's talking. Luke got a call from his friend Cole then Cole came and picked us up in his small black car Nico sat on Kevin I sat on Luke and Quinn sat in the front like I said was he actually there. As we were playing around on the back roads, I kissed Luke because I felt like he wouldn't kiss me and I didn't want him to kiss me at the end of the night, when I kissed him everyone in the car was like oh my god that just happened and like you go Luke, after I kissed him Nico kissed Kevin and it started a make out session in the back of the car. As Luke and I kept making out it felt like it was just me and him, it made me forget about all the guys that I had trouble with in the past, and he was the only one that I cared about it was perfect besides, when Cole almost gave me a concussion but that just made me hold more onto Luke tighter. As we continued to ride around Nico asked if I was over this I said "yeah" and she said "okay have Luke tell him to take us back". so I did and Luke just seemed confused as heck so me being me I spoke up and said "hey Cole were over this take us back to Nico's", so he did and when we got back Cole left, as we just stood around near the vehicles and figured out what we were going to be doing now, I walked over to where the guys were standing and Luke gently pulled me to him so I would be leaning up against him and he rested his arms on my shoulders. As we figured out what we are going to do next, Nico came up with the idea of going to Motts and just make out etc, so we all got into the vehicles, and left. As we got there we just relaxed talked and made out, while Quinn fished like I say was he really there... My phone died and my parents called Nico because my parents have me on GPS and they kinda freaked out I don't know why, but we all decided it's best for us all to leave mostly not to get me in trouble. On our way back to Nico's House is where the night turned bad. As we were heading back we got into an accident. The truck I was in smashed into the beautiful Chevy in front of me and pushed cross the intersection. This accident happened a block away from Nico's house, and IN FRONT of a hospital. The truck

I was riding in was totaled. No one got hurt besides Nico she got a concussion, I only have soreness and whiplash from slamming into the dashboard. As the accident is happening no one knew what was going on, everything went dark for me, as I got pulled back up on the seat from the ground and noticed what happened, it was a shit moment. Later the night we went to the hospital for Nico, everyone showed up who was involved in the accident except luke. But the most nerve racking thing I had to deal with was calling my parents and telling them what happened, I was surprised my parents were calm about it, and just wanted to make sure I was okay. The morning time I was kinda feeling the pain from the accident.
